

MULTILOVE

Project: Space Time, 2006

Multilove...un insieme di elementi dal volume semplice, scultoreo, quasi astratto che, combinati, creano un gruppo conversazione dalla forte personalità.

Un gioco di composizioni per creare architetture morbide, dinamiche, sensuali...

Un luogo in cui incontrarsi e creare il proprio ambiente domestico o pubblico.

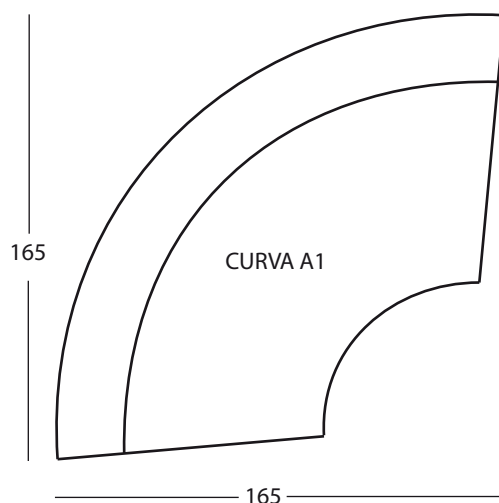

Struttura in legno. Imbottitura in poliuretano indeformabile a doppia densità rivestita con fibra acrilica e tessuto protettivo. Cuscini volanti in piuma e fiocco di poliestere. Piedi in PVC.

Multilove ... a range of simple, sculptural, almost abstract elements, able to create - once assembled - the overall effect of dynamic and strong personality shapes.

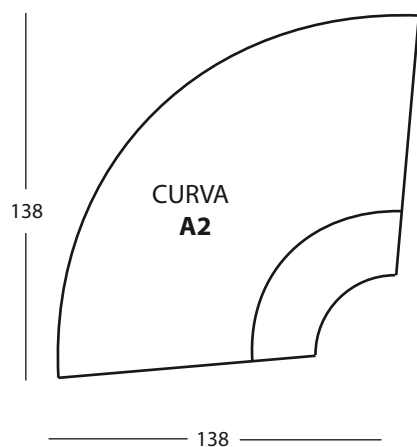

A composition game creating soft, dynamic, sensual architecture....

A place where meeting and creating an individual home or public environment.

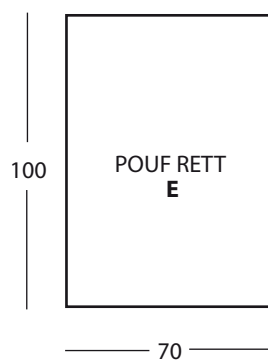

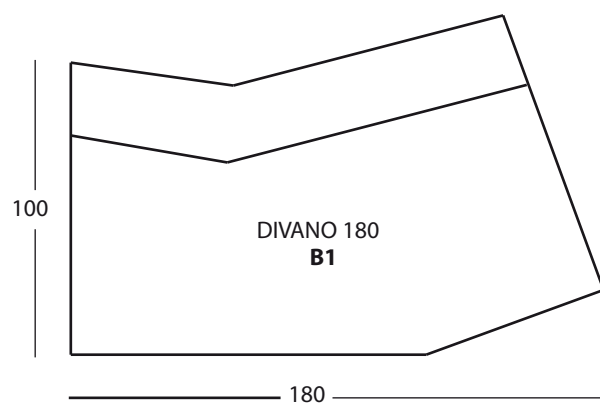

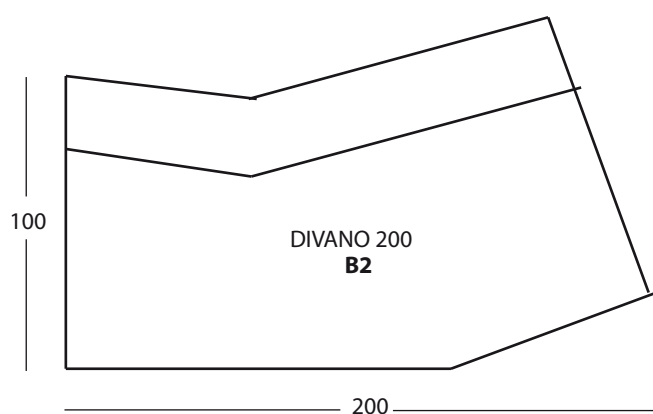

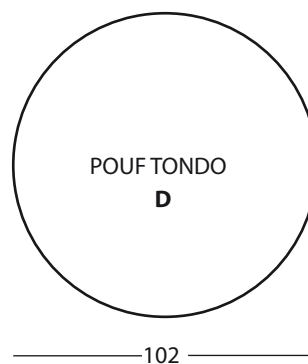

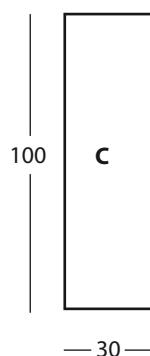

Wooden frame. Double density shape-retaining polyurethane foam, covered with acrylic fibre and protective lining. Cushions padded with feathers and polyester-flakes. Feet in PVC.
